Financial Data

This note is a look at how donations as of May 31, 2024 compare with donations for the same period in 2023. While there is a small increase in donations for current operations, donations for most other categories are down from last year. The contribution from fundraising is new for 2024 and adds \$966 so far.

At the Annual Meeting in February, it was noted that there is a need for a significant increase in donations for Local Purposes in order to balance the budget.

It should be noted that donations for capital projects are not included in the table. In April of 2023, there was a large one-time donation for capital projects.
